

THE OFFICE OF THE VICE PROVOST FOR RESEARCH

The mission of OVPR is to foster excellence in the research, scholarly, and creative activities of individuals, teams, centers, institutes, units, and schools by supporting increased research and creative productivity across all disciplines. OVPR maximizes the potential of IU Bloomington faculty to accomplish their work and secure funding by offering research development support including consultation, proposal development services, competitive internal funding programs, and research infrastructure.

INTERNAL FUNDING OPPORTUNITIES

ovpr.indiana.edu/funding/internal-funding-programs/

Competitive Funding Programs

Collaborative Research and Creative Activity Funding *Maximum amount \$20,000.* Supports collaborative research and creative activities and projects involving tenured or tenure-track faculty, scientists, and scholars who are working with IU Bloomington centers, institutes, or museums.

Emergency Grant-in-Aid *Maximum amount \$750.* Supports research and creative activity with a modest subsidy at critical times.

Emerging Areas of Research *Up to \$3M + faculty lines.* Supports key areas of research or creative strength on the IU Bloomington campus that are novel or established, but need support to increase stature of the area.

Faculty Research Support Program Supports new innovative research projects targeted for submission to a specific external agency and whose likelihood of funding would increase with the acquisition of data or proof of concept. Renewals and continuation projects will not be considered.

- **External Resubmission:** *Maximum amount \$75,000.* Eligible projects have been previously submitted for, but did not receive, external funding. Must be innovative and highly rated (e.g., overall excellent or very good).

- **Seed Funding:** *Maximum amount \$40,000.* Eligible projects must be new, innovative, and not previously submitted for external funding.

Grant-in-Aid *Maximum amount \$3,000.* Interim support provided for faculty research, scholarship, and creative activities.

Indiana Clinical and Translational Sciences Institute *Maximum amount varies.* Indiana CTSI is funded by the National Institutes of Health. Through Indiana CTSI, funding opportunities are available to faculty at IU, Purdue University, and University of Notre Dame.

Research Equipment Fund *Maximum amount \$200,000.* Supports the purchase or development of equipment to be used by groups of investigators working on innovative projects that already have, or have the potential for, sustainable external support.

Research Leave Supplement Program *Maximum amount based on salary.* Supports research and creative activity at critical times for senior researchers and scholars pursuing active research interests.

Retired Faculty Grant-in-Aid *Maximum amount \$2,000.* Supports research and creative activity with modest subsidy at critical times. Specifically for senior researchers and scholars pursuing active research interests.

Non-competitive Funding Programs

Bridge Funding Program *Maximum amount varies.* To provide modest financial support for faculty research and scholarship during times when externally funded research programs are between grant cycles. Funds will be used to maintain research programs at a level adequate to ensure continuing viability.

Start-up Funds *Maximum amount varies.* Under special circumstances, particularly in the sciences, OVPR will consider a partnership with an academic unit to determine an appropriate start-up package, particularly shared equipment.

Nominations Required

Distinguished Faculty Research Award & Lecture *Award amount \$5,000.* Annual lecture, co-sponsored by the Office of the Provost and OVPR, recognizing research contributions of an IU Bloomington faculty member.

Outstanding Faculty Collaborative Research Award & Lecture *Award \$15,000.* Offered by the Office of the Provost and OVPR to recognize collaborative faculty teams for accomplishments in research, scholarship, and creative activities.

University-wide Internal Funding Programs

IU Collaborative Research Grants *Maximum amount \$75,000.* Funded by the Office of the Vice President for Research to facilitate outstanding research and cutting-edge discoveries by teams of experts who have not worked together previously in the project's subject matter.

IU Grand Challenges *Maximum amount varies.* Grand Challenges are large-scale problems that can be addressed only by multidisciplinary teams of the best researchers. IU anticipates investing \$300 million over five years, including base funding for up to 175 new faculty lines.

New Frontiers in Arts & Humanities *Maximum amount \$50,000.* Supports innovative faculty projects in the arts and humanities university-wide. Funded through the IU President's Office and managed by OVPR and the Office of the Vice President for Research.

Looking for external funding?

- **Find tools** to help researchers locate funding. ovpr.indiana.edu/funding/external-funding/
- **Pivot** is updated daily, indexes nearly \$33 billion in funding opportunities, and can be set to send individualized alerts. IU maintains an institutional subscription to this service, enabling all faculty to create personalized profiles. We encourage researchers seeking federal funding to search this database. pivot.cos.com
- **Foundation Directory Online** indexes private funding opportunities and includes valuable information about the granting history and priorities of particular funders. Beginning September 1, 2017, IU will provide online access through an institutional subscription to this database, which can be accessed on the Bloomington campus through the IU Libraries website. We encourage researchers seeking private funding to search this database, and to contact the IU Foundation Relations team (cfrforms@iu.edu) prior to approaching prospective funders. <https://libraries.indiana.edu/resources/foundationdirectory>
